We work with selected online shops serving millions of online customers each month. Our partners typically act as publishers and advertisers.

Publishers present the partner offers as a 'Thank You' and customer loyalty measure:

- via a targeted banner on the order-success or thank-you page powered by our Rebatic technology that displays relevant and personalized coupons, which can be redeemed immediately.

Advertisers provide unique or generic coupon offers targeting the right customers at the right time...

- by industry or product segment
- via a partner white list or black list
- by geographic area

How it works

Once the online shopper successfully completed the purchase from a partner shop, the embedded "Thanks-For-Your-Business" banner is displayed right on the order confirmation or thank-you page.
